

Furniture Anchor

Overview

A simple and secure anchor point compatible with the 20mm decking ranges from MyDek. The furniture anchor from MyDek is designed to work with the full range of aluminium decking boards. Made from recyclable aluminium, the anchor provides an elegant and simple solution to the age-old challenge of furniture being dislodged by high winds at height. Tough enough to withstand wind loadings yet neat and unobtrusive, this clip is simple to fit and can easily be repositioned. With its twist lock and cam-clamp action, its never been easier to secure your furniture, and it folds down flat when not in use.

FEATURES:

Summary

Safe.

All aluminium used to create MyDek is compliant with current industry and manufacturing standards. The products are fully tested for durability, deflection and slip resistance. All MyDek products are certified to the relevant fire standards.

Smart.

Under normal usage, MyDek is easy to maintain - simply wash the deck surface as needed without abrasive chemicals. MyDek is one of the lowest-maintenance systems available.

The unique ClipRail™ and SupportRail™ systems make MyDek installation fast and simple.

Sustainable.

The 60-year service life and ability to be recycled make MyDek a sustainable building feature. The longer life cycle reduces the energy required to produce replacements.

Aluminium wastage created through any of the manufacturing process is fully recyclable and is used to create other aluminium products.
