STORAGE AND HANDLING:

All storage, logistics and installation must be conducted under an appropriate risk assessment and method statement.

- Always wear gloves when handling boards.
- Pavers must be stored flat, supported over their entire area such as on a suitable pallet.
- Store in a dry, ventilated area
- Do not store boards in damp or exterior conditions, this can cause mould build-up between the pavers.
- Do not overload pallets, failure of a pallet can cause the stack to topple. Instead, stack up to 2 metres high in total and within the capacity of the pallet.
- Do not drag pavers off the stack, instead, avoid scratches by lifting pavers using a suitable technique, and where possible using suitable lifting aids.
- Use lifting aids and Personal Protective Equipment as set out in the risk assessment and method statement.

Summary

Safe.

All materials used to create MyDek Luxura® Pave are compliant with current industry and manufacturing standards. The products are fully tested for durability, deflection and slip resistance. All MyDek products are certified to the relevant fire standards.

Smart.

Under normal usage, MyDek Luxura® Pave is easy to maintain - simply wash the deck surface as needed without abrasive chemicals. MyDek Luxura® Pave is one of the lowest-maintenance decking systems available. The unique BoxRail™ system makes MyDek Luxura® Pave installation fast and simple.

Sustainable.

The 60-year service life and ability to be recycled make MyDek a sustainable building feature. The longer life cycle reduces the energy required to produce replacements.

Material wastage created through any of the manufacturing process is fully recyclable and is used to create other decking products.
