

## Decking Furniture Anchor

### Overview

A unique furniture anchor designed to interface with a wide range of decking systems to anchor furniture to decking in locations exposed to high winds such as balconies.

Carefully engineered to withstand very high loadings while being compatible with any 20mm or 25mm thick decking system with 6-8mm gaps. Other sizes available on request.

### FEATURES:

- Compliant with non-combustible location requirements
- Aluminium/Stainless Steel body
- Extremely easy to relocate with no damage to decking

### DIMENSIONS:

Overall Size	56mm (L) x 40mm (W) x 34mm (H)
Height above decking	8mm
Weight	31g

### MATERIAL:

Body	Powder Coated Aluminium
Lashing Ring	316 Stainless Steel
Locking Pin	316 Stainless Steel
Gasket	Foam Rubber

### STRENGTH:

Maximum load	1.5Kn
