INTRODUCING...

Luxura®

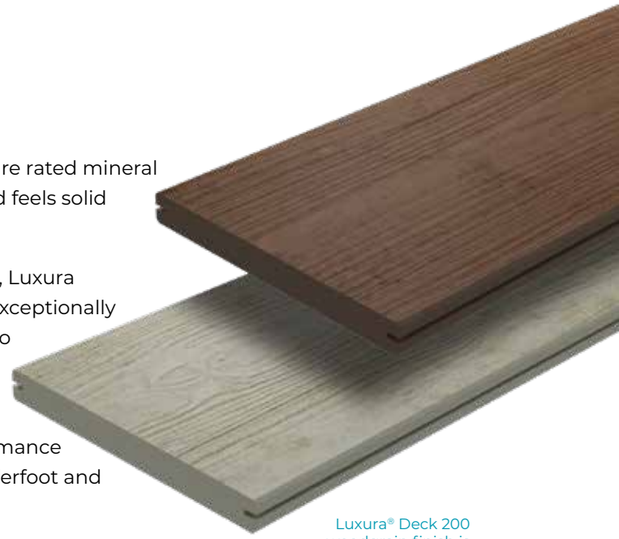

MINERAL COMPOSITE DECKING SYSTEM

Luxura decking boards are made from A1 fire rated mineral composite designed to look like timber and feels solid and comfortable under foot.

As well as providing excellent visual appeal, Luxura boards deliver outstanding durability, are exceptionally low maintenance and are highly resistant to scratching, wear and tear and will endure all extremes of weather conditions.

You can relax with Luxura. The high-performance composite feels both natural and solid underfoot and will never twist, warp or rot.

Luxura®. Natural Choice. Ultimate Performance. Complete peace of mind.

Luxura® Deck 200 woodgrain finish is available in the following colours: Hickory and Aged Oak

Luxura®

MINERAL COMPOSITE DECKING SYSTEM

ENGINEERED TO PERFORM

Careful engineering means that the high density compound can be machined and drilled in a similar way to hardwood timber (using correct cutting tools) and is much faster, simpler and cleaner to cut than materials such as stone or porcelain.

Luxura® simply delivers unrivalled benefits:

- Natural timber look aesthetic
- A1 Non-combustible fire rating
- Hard wearing mineral composite for ultimate durability
- Exceptional slip resistance
- Stain resistant, easy-clean surface
- Doesn't get hot in the sun
- Will never warp, twist or rot
- 30 year warranty
- 60 year design

ENDURING QUALITY

In use, Luxura® feels and sounds as solid to walk on as stone or concrete which delivers a high quality user experience with a deck that will endure for decades to come.

The material compound is impregnated with a specialist invisible solution that makes Luxura® completely stain resistant and easy to clean. The natural character of the material has outstanding slip resistance properties and is resistant against frost, algae and moss growth.

For complete peace of mind, Luxura® achieves the ultimate fire rating of A1 and is perfect for use on high rise residential balconies and terraces.

Disclaimer: deck board colours of images and illustrations within this brochure are intended to be close as possible and may vary from finished product.

Natural Aged Oak

Luxura Deck 200WG

Deck 200WG gives a textured woodgrain effect for a natural timber look. Once installed, your deck will give that solid, homely look that you'll always feel comfortable with. The 193mm board unit makes it quicker to install than narrower boards.

Benefits:

- Wider board reduces installation time and number of fixings required
- Mechanical fixing eliminates risk of wind uplift
- Neutral colours work perfectly with most building design colour palettes

Dimensions:

Board width x depth:	**Hickory**	**193 x 20mm**
	Aged Oak	**193 x 20mm**
Board length:	**2.44m** (subject to conditions)	
Weight:	**14.2kgs/board (29kgs/m²)**

INSTALLATION

Luxura® is simple and fast to install, utilising a non-combustible hidden fixing clip system to fix into the sub-frame, clamping the boards via a neat groove in the side of the boards. The unique composite compound can also be drilled and screwed if required.

Boards can be cut with circular saw, chop saw or jigsaw (see installation instructions for blade specifications).

Luxura® is compatible with all of the MyDek subframe systems or fixed directly to steel or aluminium projecting balcony frames.

Where can Luxura be used?

- High-rise residential balconies and terraces
- Hospitality and Commercial decks and terraces
- Boardwalks, swimming pool decks and pontoons
- Domestic decks and patios

Luxura®
MINERAL COMPOSITE DECKING SYSTEM

COMPATIBLE WITH OUR BOXRAIL SUPPORT SYSTEM

A1 Fire rated, non-combustible aluminium support system with a unique clip designed for restraining porcelain tiles against wind-uplift. Suitable for use with all balconies and terraces.

Construction height

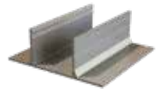

By using different combinations of support cleats and BoxRails a wide range of construction heights can be achieved. The joists can also be adjusted within the cleats to suit gradients as well as heights.

INTRODUCING...

Luxura® Clad

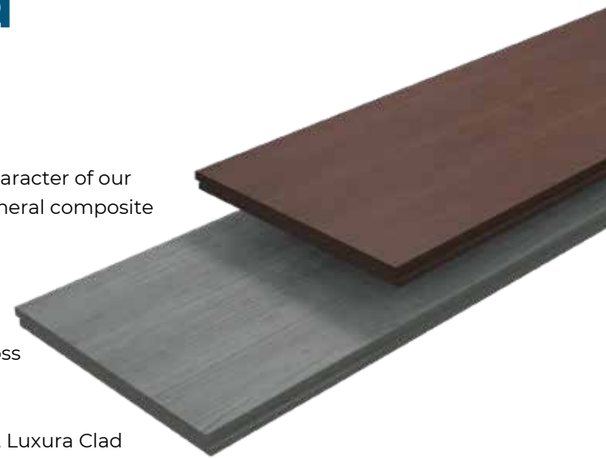

MINERAL COMPOSITE CLADDING SYSTEM

Natural character, from deck to façade.

Luxura Clad matches the timber-inspired character of our decking in an A1-rated, non-combustible mineral composite cladding board

Natural surface variation and an embossed woodgrain finish capture the appearance of real timber, creating a coordinated look across façades and balconies.

Suitable for horizontal or vertical installation, Luxura Clad pairs with MyDek's rail and helping hand support system. Purpose-designed swivel clips support efficient installation, backed by practical guidance from our technical team.

Luxura® Clad is available in colours Hickory and Aged Oak, with painted finishes available
